

## **What is the USF Recovery Fee that appears on my invoice? What other taxes and fees are included on my invoice?**

Tue, Nov 19, 2019 [Account & Billing Information](#) 3849

NTInet Inc. currently only charges the USF recovery fee and taxes on VoIP services.

The USF (Universal Service Fund) Recovery Fee is a regulatory surcharge assessed for use of the network.

Other taxes and fees will appear as separate line items on your NTInet invoice. The exact amount of taxes and/or fees that NTInet will be collecting is based on the taxing statutes and regulations of your state and local jurisdiction, and the type(s) of NTInet product(s) and service(s) you have.
