

Am I being charged for each of the email addresses listed on the invoice?

Tue, Nov 19, 2019 [Account & Billing Information](#) 2936

It depends on your service plan. All plans include a certain number of free email addresses, which will be listed on your invoice without any associated charge. You'll be charged for additional email addresses only if you exceed the number of free addresses allowed under your plan. If you've incurred an additional charge, you'll see that charge next to the additional email address on the invoice.
